

Blansol

60th

anniversary

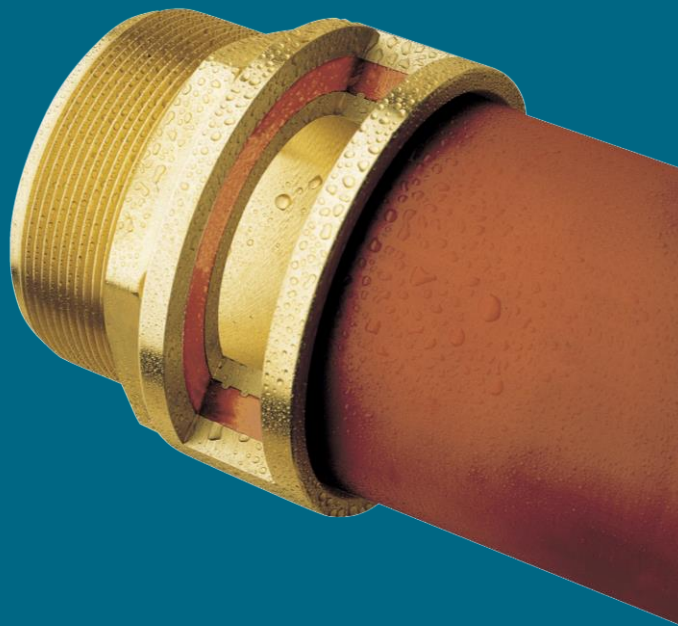

PRESENTATION OF THE COMPANY INDUSTRIAL BLANSOL, S.A.

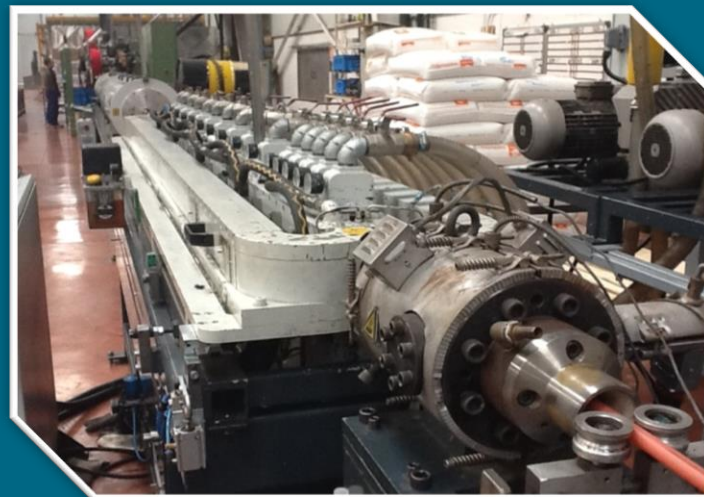

- Family company created by Mr. Andrés Santiago (1955).
- Since 1992 the third generation of the family Santiago leads the company and maintains the family business tradition.
- Blansol is present in 50 countries and exports 75% of its sales.
- Worldwide inventor of the Axial fitting technology for PEX pipes (Barbi system).

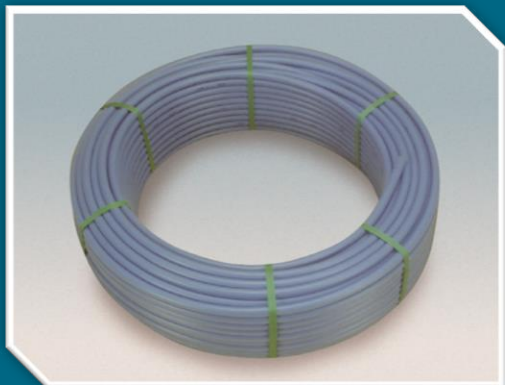

- Blansol is the leading manufacturer of PEX and multilayer pipes and fittings in the South of Europe.
- Full system manufacturer (Pipes and fittings).
- Production capacity: over 80 million meters.
- 2 factories: Pipe factory in Bárcena de Cicero (next to Bilbao) and fitting factory in Palau de Plegamans (Barcelona).
- Blansol products are 100% made in Spain, using the best European technology and prime raw materials.

- Full range of PEX pipes: PEX-A, PEX-B, Oxygen barrier Pipes (EVOH) and Pipe in Pipe.
- 2 connection systems:
 - Radial sliding sleeve (Barbi system) 
 - Axial press-fitting system (Easypress system). 
- Most efficient actor in the production of PEX pipes thanks to its state of the art technology:
 - PEX-A: Infrared oven cross-linking.
 - PEX-B: Monosil technology.

- Biggest producer of multilayer pipes in the South of Europe.
- High quality butt-welded multilayer pipes.
- The most advanced Swiss technology and best raw materials.
- Big range of pipes: PEX-Al-PEX, PERT-Al-PERT, Insulated pipes and special pipes for Axial systems (Gladiator system).
