INDEPENDENT & EASY

Our universal design solutions offer safety with style.

For more than half a century, Delta Faucet Company has studied the daily relationships between people and water. Our observations have led to the discoveries of unspoken needs—and from there to the creation of groundbreaking designs and technologies.

Through our broad array of product innovations, we continue to make a difference for people of all ages and abilities in all settings: helping their interactions with water to become more accessible, more enjoyable and more transformative.

MINDFUL & EFFICIENT

Saving water—one faucet at a time.

For years we have led the industry in sustainability by using environmentally responsible manufacturing processes and creating newer, greener technologies and products.

We have also partnered with the EPA WaterSense® Program to protect and conserve our nation's water supply—having helped save 1.5 trillion gallons of water since 2006. We were honored to be named as WaterSense Manufacturer Partner of the Year in 2011, 2013 and 2014, and as a WaterSense Sustained Excellence Award Winner in 2015 and again in 2016.

UNIVERSAL DESIGN

FUNCTIONAL & VERSATILE

Part kitchen faucet, part kitchen assistant.

In addition to stunning designs, we incorporate innovations such as Touch2O® Technology, MagnaTite® Docking and DIAMOND™ Seal Technology—adding convenience and dependability to cooking and cleaning.

**Like changing the look of your shower?
Our MultiChoice® Universal Valve lets
you keep your options open.**

Installing the Delta® MultiChoice valve means you can more easily change your shower trim or function in the future—without having to alter the plumbing behind the wall. Whether you want the security of a pressure-balanced cartridge or the precise temperature control of thermostatics, MultiChoice Universal makes it easy.

**Single-Function Pressure-Balanced—
Control Temperature**

- Single control for temperature only
- Temperature is achieved by balancing the pressure of hot and cold water*
- Cartridge included with all Monitor® 13 and 14 Series shower trims

**Dual-Function Pressure-Balanced—
Control Temperature & Volume**

- Control temperature and volume independently
- Temperature is achieved by balancing the pressure of hot and cold water*
- Temperature can be set to remain consistent shower after shower
- Cartridge included with all Monitor 17 Series shower trims

**Dual-Function Thermostatic—
Control Temperature & Volume**

- Control temperature and volume independently
- Keeps precise water temperature ($\pm 3.6^\circ$) by measuring, monitoring and automatically adjusting the water mix
- Temperature can be set to remain consistent shower after shower
- Cartridge included with all TempAssure® 17T Series shower trims

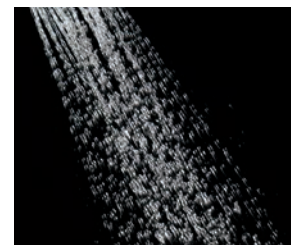

*When the inlet temperature limit stop is set correctly, and the water inlet temperature remains constant.
